Application No. 10/717,323

In Reply to Notice of Allowance Mailed on: August 7, 2006

REMARKS

In the Notice of Allowance mailed on August 7, 2006, Claims 1-42 were allowed. The Applicant appreciates and thanks the Examiner for positive consideration of these claims.

Applicant respectfully submits that the remarks made in the Applicant's Response to Office Action of July 26, 2006, for example, are not exhaustive, and may not have responded to the Examiner's remarks for the allowed dependent claims. As a consequence, should a need arise in the future, Applicant respectfully reserves the right to argue the characterization of these claims, including their claim elements and/or features, either alone or in combination.

Applicant does not necessarily agree or disagree with the Examiner's characterization of the documents made of record or the Examiner's characterization of claim elements and/or features in the recited claims of the instant Application. Such a characterization of the claims in view of the prior art may not properly take into account the claimed invention as reflected in the claims, the specification and the prosecution history of the corresponding patent application.

CONCLUSION

Applicant respectfully submits that the Examiner has thoroughly examined the claims, recognized the limitations appearing or not appearing in each of the claims, and has found the claims to be allowable based on the record. If the Examiner has questions, the Examiner is invited and encouraged to contact the undersigned at the below-listed telephone number.
